SUMMARY

Timothy is uncertain about his future career path and is exploring career options within his major.

KEY CONCERNS

- Uncertainty about transferring to a different academic program or career path after majoring in geography
- Interest in environmental and social impact sectors, but lack of clarity about what to do with geography
- Excitement to continue working with geography and its values, but lack of understanding of career opportunities within the program

ACTION PLAN

- Help Timothy explore potential career paths within environmental and social impact sectors, such as environmental management, conservation, or policy
- Refer Timothy to career center for resume and interview preparation workshops
- Discuss potential major and minor combinations with geography and environmental studies programs
- Encourage Timothy to stay in the geography program if it's a good fit, but also consider other options based on his interests and skills

FOLLOW UP PLAN

- Check in after finals week to check if Timothy has made a decision or is still exploring
- Recommend a career counseling referral if he becomes more interested in a technical or non-academic path
- Encourage Timothy to reach out for internships or job opportunities in his current geography-related field
