SUMMARY

Justin is struggling with academic balance in psychology major and needs guidance on whether his chosen major is viable.

KEY CONCERNS

- Half-hearted academic performance (GPA around 2.5)
- Struggling to understand the psychology course content
- Involvement in mental health and mental health organizations, which may have influenced course selection
- Interest in psychology major but not sure if it's a good fit

ACTION PLAN

- Refer Justin to psychology tutoring services for course review
- Connect Justin with tutoring center's free tutoring sessions for psychology courses
- Discuss potential majors that align more with Justin's interests (e.g., neuroscience, social work, psychopharmacology)
- Encourage Justin to stay in the psychology major if it's his preferred major, or explore alternative fields if academic balance is not sustainable
