SUMMARY

Brandon is struggling with academic performance in Computer Science and is feeling overwhelmed by the program's demands.

KEY CONCERNS

• Low academic performance (Cés in most of his majors)
• Worries about being kicked out of the program
• Struggling with technical course selection and understanding technical concepts
• Feelings of overload and lack of understanding of the program's expectations

ACTION PLAN

• Help Brandon identify which Computer Science courses are most relevant for his major (e.g. Data science, machine learning, computer networks)
• Suggest that Brandon enroll in lower-level courses with tutors to improve his understanding
• Recommend that Brandon explore non-major options (e.g. Math, statistics, engineering) if the program is too demanding
• Encourage Brandon to focus on achieving a Cés in his major but also emphasize the importance of academic integrity and growth mindset
